

# New Break out Facilities for an Industrial Environment

 Birmingham

 £80k

 12 weeks

The client on this project is a multinational company, active in the fields of decorative paints, performance coatings and specialty chemicals.

They asked us to develop a concept through to detailed design and construction of a new breakout facility extension to accommodate all employees both industrial and office employees. The extension increased the facility by 50% into an unused industrial area.

## Scope of works included:

- Full strip out and enabling works, Installation of new flooring, furniture, doors, decoration, ceiling and lighting
- Installation of curved “breakfast bars”
- Spaces created for existing vending machines
